SUMMARY

Computer Science student and IT Specialist with 3+ years of experience delivering web solutions, technical support, and digital transformation projects. Managed 10+ digital projects, developed 15+ production websites, and supported 40+ users across Microsoft 365, Google Workspace, and cloud platforms. Passionate about AI, automation, and scalable software solutions.

EXPERIENCE

Sheeria Group – Riyadh, Saudi Arabia

Information Technology Specialist

May 2023 – Nov 2025

- Managed end-to-end delivery of 10+ digital projects (planning, development coordination, testing, and deployment) using WordPress and front-end technologies
- Translated client requirements into functional websites and landing pages using CMS platforms and custom front-end development (HTML, CSS, JavaScript)
- Developed and maintained 15+ responsive websites and landing pages with focus on performance optimization and UX improvement
- Performed testing and debugging using browser developer tools and Postman for API validation, improving application stability
- Managed deployment workflows including hosting setup (cPanel/WHM), domain configuration, and production releases
- Provided technical support for 40+ internal users and clients across Microsoft 365, Google Workspace, CRM systems, and web services
- Integrated Google Analytics and Google Tag Manager to improve tracking and marketing performance insights
- Supported CRM and marketing automation tools for lead management and digital campaigns

Code Brew Labs

Remote Developer

Jan 2022 – May 2023

- Assisted in building and testing web/mobile application features under senior developer supervision
- Worked with frontend/backend technologies (HTML, CSS, JavaScript / React / Node.js)
- Fixed bugs and contributed to UI improvements
- Participated in code reviews and remote team meetings
- Learned agile workflow and Git version control

EDUCATION

Imam Mohammad Ibn Saud Islamic University

Bachelor's Degree in Computer Science – Expected 2029

CERTIFICATIONS

- McKinsey & Company – Forward Program (Apr – Jun 2026)
- IBM – AI Developer (Mar 2026)
- Anthropic – Claude 101 & Agent Skills (Nov – Dec 2025)
- Amazon AWS – Introducing Generative AI with AWS (Jul 2025)
- Google – Technical Support (Jul 2023)

PERSONAL PROJECTS

- DonCare: an all-in-one Clinic Management Platform that empowers clinics to manage appointments, patient records, billing, online payments, telemedicine, and reporting from a single secure dashboard. By automating routine workflows and improving collaboration between doctors, receptionists, and patients, DonCare enhances operational efficiency and delivers a seamless healthcare experience.
- Multi-AI Orchestration Platform: Developed a Multi-AI platform with 25+ agents and 100+ skills for workflow automation, flight and hotel booking, online shopping, AI image generation, and presentation creation.

- Full E-Commerce Platform: Built a complete e-commerce solution with multi-store management, admin dashboard, payment integration, invoicing, VAT handling, and order management.
- LiveScore App: Developed a cross-platform LiveScore application using Flutter that delivers real-time match scores, fixtures, standings, and sports statistics, sports news, articles, and video content integration.
